

Clean Version of Amended Claims as of March 13, 2000

We enclose a copy of the clean version of the claims.

1. *(Amended)* A portable communication apparatus having a display, a user-controlled input device, a memory, a controller and a hierarchical menu system stored in the memory, the men system comprising a plurality of menus, including top-level menus, and a plurality of menu items under respective menus, the controller being arranged to present individual menus/menu items on the display, receive selection commands from a user through the user-controlled input device and in response perform functions related to the presented menus/menu items, the memory of the apparatus further comprising a dynamic menu, the contents of which may be modified by the user, wherein the dynamic menu is either a top-level menu or a sub-level menu in the hierarchical menu system.
2. *(Amended)* A portable communication apparatus as in claim 1, wherein the dynamic menu comprises a menu item for providing a function for modifying the dynamic menu.
3. *(Amended)* A portable communication apparatus as in claim 2, wherein the controller is arranged, when providing said function for modifying the dynamic menu, to present a list of available menu items on the display, the list comprising menu items from other menus than the dynamic menu, to accept a selection command through the user-controlled input device and in response add a selected menu item to the dynamic menu.
4. *(Amended)* A portable communication apparatus as in claim 2, wherein the controller is arranged, when providing said function for modifying the dynamic menu, to present a list of menu items on the display, the list comprising menu items already located in the dynamic menu, to accept a selection command through the user-controlled input device and in response delete a selected menu item from the dynamic menu.
5. *(Amended)* A portable communication apparatus as in claim 2, wherein the controller is arranged, when providing said function for modifying the dynamic menu, to provide a function for allowing a user to decide a sequential position of any menu item of the dynamic menu.
6. *(Amended)* A portable communication apparatus according to claim 1, wherein the dynamic menu comprises at least one prestored menu item provided by a manufacturer before first use of the portable communication apparatus.

7. *(Amended)* A portable communication apparatus according to claim 1, wherein the apparatus is a mobile telephone.
